Summary

I am a dedicated Software Developer at OWY Technosys Pvt. Ltd., where I specialize in full-stack development using technologies like PHP, React.js, and SQL. Previously, I interned as a Full Stack Java Developer at Ducat India, Noida, gaining hands-on experience in Java and web development. I graduated with a B.Tech in Computer Science and Engineering from Dr. A.P.J. Abdul Kalam Technical University in 2024. My focus is on creating efficient, user-centered software solutions and collaborating with teams to drive innovation.

Technical Skills

Programming Languages: PHP, Java, JavaScripts

Libraries/Frameworks: SpringBoot, JSP, Servlet, Hibernate, HTML, CSS, ReactJS, Node.js

Tools/Platforms: Shopify, GitHub, VS Code, IntelliJ IDEA, NetBeans, XAMPP, ChatGPT

Databases: SQL, MongoDB

Work Experience

Software Developer - OWY Technosys , Surat(Gujarat) Sep 2024 - Present

- As a Software Developer at OWY Technosys specializing in Shopify plugin development. My work involves leveraging PHP, React, and SQL to create efficient and scalable solutions tailored to e-commerce platforms.
- I focus on building robust plugins that enhance functionality and user experience. With a commitment to quality and innovation, I strive to deliver impactful results.

Full Stack Java Developer Trainee - Ducat India, Noida(U.P) Feb 2023 - Sep 2023

- Acquiring comprehensive expertise through hands-on experience, I gained proficiency in real-world Java development scenarios, shaping me into an adept professional.
- The project demonstrated proficiency in object-oriented programming, exception handling, multithreading, and database integration, showcasing a deep understanding of both fundamental and advanced Java concepts.

Projects

Meal-Mate | Node.js, React.js, HTML, CSS, JavaScript, MongoDB, GitHub June 2024

- This web-application features an intuitive user interface, real-time updates, and a secure payment gateway, providing a reliable and efficient platform for both users and restaurants..
- Designed and managed the database schema with MongoDB, ensuring optimal data storage.

Portfolio | JavaScript, HTML, CSS, React.js, API, GitHub, ChatGPT May 2024

- A dynamic and responsive personal portfolio website showcasing my projects, skills, and professional journey. The portfolio is designed to provide a comprehensive overview of my work as a Full Stack Developer.

ATM Interface | Java, OOP's, Java Swing, GitHub Sep 2023

- Developed an ATM interface application using core and advanced Java concepts. The project simulates typical banking operations, providing a user-friendly interface for account management.
- The system demonstrates a solid understanding of Object-Oriented Programming principles and advanced Java features.

Currency Converter | JavaScript,, HTML, CSS, API, GitHub, Netlify, ChatGPT Jan 2024

- Developed a responsive and intuitive currency converter application that allows users to easily convert between various international currencies.
- The application fetches real-time exchange rates from a reliable API and provides accurate conversion results instantly. This project demonstrates proficiency in front-end development and API integration.

GUI Calculator | Java, OOP's, Java Package, GitHub Dec 2023

- Developed a graphical user interface (GUI) calculator application using Java, demonstrating proficiency in object-oriented programming and GUI design.
- The calculator supports basic arithmetic operations and provides a user-friendly interface, making it a practical tool for everyday calculations.

Education

KNIPSS, Faridipur, Sultanpur, Uttar Pradesh Dec 2020 - Jul 2024

Bachelor of Engineering in Computer Science - **Distinction**
